

Curb Guard

Trash Capture

Comprehensive Stormwater Solutions

Bio  Clean
A Forterra Company

OVERVIEW

The Bio Clean Curb Guard is the firstline of defense for inlets against debris and litter. The Curb Guard is made of 100% stainless steel. It has a unique recessed design that sets the device back into the opening a few inches for better flow.

The flat mounting bracket is flush with the curb making it tire-safe and ideal for street sweeping operations.

The Curb Guard can be used on streets, parking lots, culvert drains, recycling facilities, and industrial inlets. It retrofits any existing basin, is easy to remove and available in any length and various heights.

STORMWATER INLET TRASH PROTECTOR

PERFORMANCE

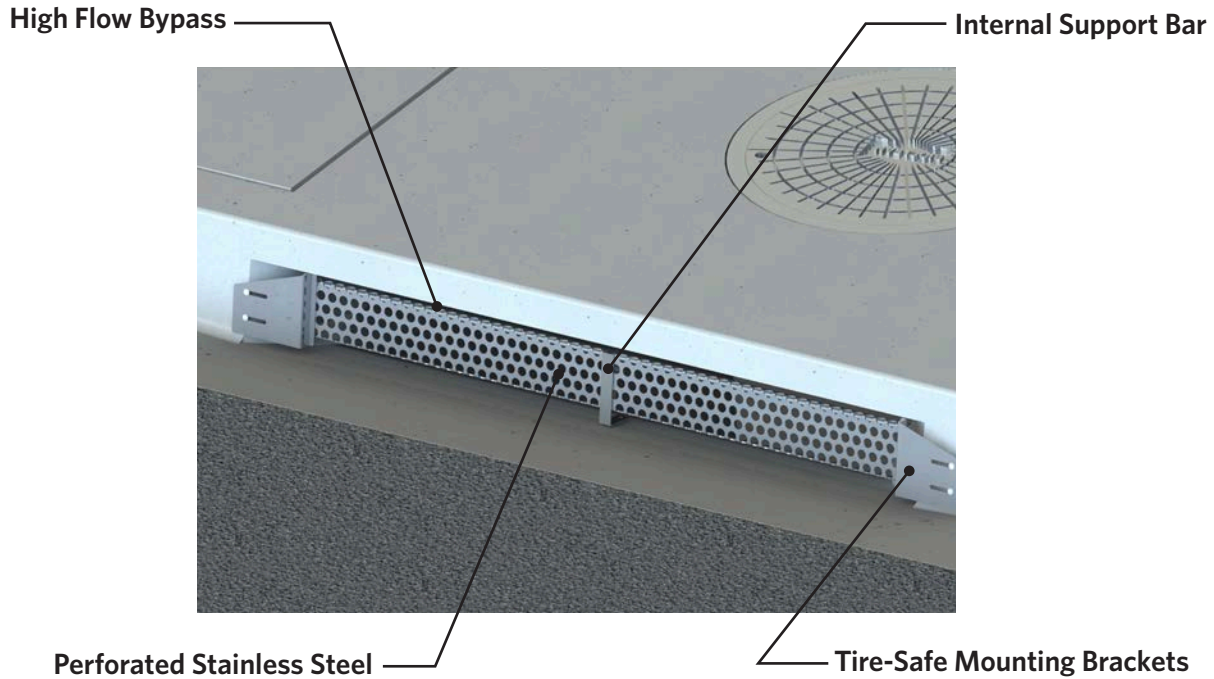

100%
COVERAGE OF
THE BASIN

- CAN ASSIST YOUR CITY COUNTY WITH TRASH TMDL COMPLIANCE
